Internship Offer Letter

Student Name : Sahil Sharma
Stream : B.Tech
Branch : B.Tech(Computer Science and Engineering)
Institute Name : IILM University, Greater Noida
Internship Domain : AWS Cloud Business Application
Internship Duration : April 2026 - June 2026
AICTE Student ID : STU69ccea256f5e91775036965

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Amazon WorkMail Getting Started	Amazon WorkMail is a secure, managed business email and calendar service by AWS, enabling familiar tools, compliance, and efficient communication management for organizations.
Week 2	Generative AI for Executives	Foundational generative AI concepts, AWS services, and strategies to create business value, helping you select services and implement generative AI in your enterprise.
Week 3	AWS for VMware Administrators Learning Plan	Transition from VMware to AWS with this learning plan: online courses, labs, and simulations covering fundamentals, security, observability, cost management, and disaster recovery.
Week 4	AWS for VMware Administrators	Modernize VMware infrastructures on AWS. This course teaches IT admins and architects scalability, cloud services, storage, databases, monitoring, backup, disaster recovery, and operational best practice
Week 5	Amazon Pinpoint Getting Started	Amazon Pinpoint lets you engage customers via email, SMS, push, and voice. Learn to create, schedule, and deliver personalized messages using the AWS Management Console.
Week 6	Amazon Simple Email Service (Amazon SES) - Troubleshooting	Amazon SES enables sending and receiving business emails. Learn to build reliable, high-deliverability email solutions for marketing campaigns, transactional messages, and notifications in the cloud.
Week 7	Microsoft on AWS - Migrate SQL Server Databases to Aurora	Babelfish for Aurora PostgreSQL migrates SQL Server databases with compatibility. Learn architecture, migration, assessment, configuration, and hands-on AWS implementation.
Week 8	Salesforce on AWS - From Basics to Business Innovation	AWS and Salesforce integration, exploring business value, customer experience, operational benefits, core concepts, practical applications, and implementation patterns
Final Credential Validation/Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
